## Pasturage.

Having leased the ranch of John P. Sweeney near Carson city, I propose to pasture cows from the 1st day of April at the rate of \$2.50 per head per month. This ranch is well watered and contains about two hundred acres of alfalfa and timothy. I have been the lessee of Mr. Kirman's ranch for years on the Penitentiary road but it is unfit for pasturage, as the contents of all the sewers in Carson as well as from the Prison lodge upon the premises. Stock will be driven from and returned to the city daily. TIM O'CONNOR. m23

## Benton's Liniment.

Which has been used in Carson for over twenty-five years, has saved many an ache and pain to those who know it. It is really intended for horses but works with the same magical effect on the human. It is a powerful remedy and for rheumatism is the king of the world. Aches knocked out in short order. No horseman should be without a bottle. n6tf

Benton's Liniment for sale at all drug stores.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays the pain, cures wind colic and is the best remedy for diarrhoea. Twenty five cents a bottle.

A. Livingston now practically controls the wholesale liquor trade of the city. He is continually adding to his stock and sells only standard brands. He is also introducing some excellent California wines to the people of Carson, as well as foreign and domestic cigars of the finest quality. Drop in and inspect his stock. d 13 tf

## ALL SORTS.

A snow storm set in last night.

Judge Belknap is quite sick in San Francisco.

The new Arlington managers are setting an excellent table.

Mrs. A. A. Evans of Reno is visiting Carson and is the guest of Mrs. Joe Jones, ha.

The present rain is quite satisfactory to everybody. It is good to open spring with.

The Capitol Band is whooping up and down the scale in practice for Memorial Day music.

Senator Fair came very near being asphyxiated by gas in a San Francisco hotel the other day.

Don't delay if you want matzos for the Jewish ceremonies but go to A. Jacobs and get in your order. \*

A fiend is on trial in San Francisco for killing a man, pickling the remains and feeding the meat to his employees.

A good many parties are arranging to leave for Pinetown soon to work on their claims. It will be a lively camp this summer.

At the Occidental hotel in San Francisco yesterday, Chas. Watson attempted suicide by shooting himself in the breast.

Mrs. Kinkaid's last talk will be on Paris, at Judge Bigelow's, Thursday evening. Those who have not heard her will enjoy a treat by going.

The watering cart man was sprinkling the streets yesterday morning in a heavy shower of rain. All he needed to complete the picture was an umbrella.

Senator Stewart gave notice in the Senate yesterday that he would on Monday move to take up the bill to provide for the free coinage of gold and silver.

The White Pine News berates Mrs. Drayton of New York with having violated the sixth commandment. It was the seventh last week. Has the News struck anything new?

Mrs. Webster, a sister of J. A. Leete, arrived in Carson from New Haven, Connecticut yesterday. Leete went to Reno to meet the lady and did not know her until she bought a ticket to Carson.

Dr. W. E. Hopkins, late Surgeon United States Army, is now associated with Dr. Powers in the treatment of diseases of Eye, Ear, Throat and Nose, under the name of Drs. Powers and Hopkins. m28 1w.

Dana's attack on Alger has only strengthened his candidacy. A man who has gone through 64 battles and has honorable wounds cannot be held up to the American people as a coward or shrinker. Nevada is for Alger now as she was four years ago.

At the rink dance tonight Lindsay's orchestra will furnish the music, while the Capitol Band will play outside. The dancing school at the Armory will not be open tonight. This winds up the rink for the season.

Old Justice Field is catching it from all sides. Several papers indulge in the hope that he will soon join Sawyer in hell. No one seems to think of consulting the devil on this question. He ought at least to be warned.

The tunnel running in on the prehistoric elephant tracks at the State Prison has been extended about 8 feet and the tracks are still very deep and well defined in the hardened strata of clay that seems to be the foundation of the period in which the tracks were made.

It is now nearing the time when a man who wants to be considered "in it" must get a summer suit. A man may be able to play a good game of poker or umpire a base ball match and yet not be able to pick out a good suit of clothes. In such a case go to Joe Platt and he will pick them out for you.

## Gibraltar.

This famous stallion will stand for the season at the ranch of John Sweeney near Carson City. Gibraltar is the sire of Homestake whose record two years ago was 2:14.

## A Card.

H. H. Springmeyer extends a general invitation to the public to come to Brigg's Hotel and sample his fresh creamery butter. Absolutely pure. m22, 1w

## RAMIE CULTURE.

Some of Its Possibilities if Grown in Nevada.

The Fourth Annual report of the Agricultural Experimental Station, places considerable stress on the possibilities of ramie culture in Nevada.

There are thousands upon thousands of acres of land lying untouched by the hand of industry in our State, that can, by the cultivation of this plant, be made to return a magnificent reward to the husbandman.

Lands so far away from market as to render the raising of grain unprofitable because of the cost of transportation, will, if planted in ramie, yield to the farmer ten times the market value of his grain.

The report says: Up to a recent period, however, a great, and as it seemed unsurmountable obstacle existed to the extensive cultivation of ramie. This obstacle was the want of a machine to properly decorticate or deburr the plant.

Ramie has a woody stem, covered with the epidermis, under which like the nerve system, lies the fine silky, but remarkably strong fibre, embedded in a gummy substance. The latter, in conjunction with the pith and epidermis, had, until quite recently, defied all attempts to subject the plant to efficient decortication, and thus render it available for the market, ready to successfully run the gauntlet of cotton, linen, jute hemp and silk.

From this may be judged the immense importance of the discovery which forms the objective point of the circular. It is no longer less than a great success, after endless labor, the invention of a perfect machine which accomplishes in the most complete and satisfactory manner, the decortication of ramie when in a dry state, and putting it into a shipping condition.

Ramie is considered superior to silk in the manufacture of textile fabrics. If the State Fair would give a premium of \$500 for the best acre of ramie raised in this State it would benefit the country far more than the same amount of premiums given for crazy quilt patchwork and best display of things already made a success of in this State.

## A Severe Loss.

There has been a big vacancy made in the Lawn Tennis Club by the resignation of Rev. J. Fred Holmes, of St. Peters.

The Reverend gentleman was an ardent lover of the game, and one of the best players in the city.

One likes to see the clergy patronize out-door sports. It elevates the sport, makes the preacher healthy, and is a good thing all round. In the resignation of Mr. Holmes the Club loses one of its most active members.

## Bergman's the Place.

How many men do you see going along the street with a drunk and disorderly necktie, and shirt front looking like a lawn tennis court. When one sees such a man as this, one feels like taking him by the collar and kicking him up the street until he reaches Bergman's, when he can array himself like a gentleman in good clothes and the correct thing in ties and collars at slight expense. There is no excuse for a slouchy habit when Bergman is in town.

## Oh My!

A young lady in this city remarked recently at a ball: "When a lady dances with my brother, her position in the four-hundred is assured."

Richards & Pringle's Georgia Minstrels drew another large audience to the Opera House last night. The performance throughout was excellent, all the numbers being rendered to the satisfaction of the audience. Billy Kersand's mouth, and the oracular utterances which issued therefrom were the wonder and delight of the spectators. The overture by the silver cornet band under the conduct of Prof. Blondin, was a triumph in its way and worth the entrance fee. The Drum Major's Dream and Billy Kersand's specialties earned special applause. The Georgia Minstrels are certain of a warm welcome should they visit the city again.—Van Courier, B. C.

The latest dispatches from Paris state that the city is terror stricken and that many residents are preparing to leave.

## DIPLOMATIC LANGUAGE.

Some Suggestions to the State Department.

The diplomatic correspondence between Blaine and Salisbury seems to have resulted in a labored attempt on the part of both sides to say as much as possible without meaning anything.

It has always been regarded as highly undiplomatic to write anything that could, by and possible construction, be made to mean what was wanted to be said.

The more a man can confuse his ideas and mix up language, the greater reputation he enjoys for diplomacy.

Why should not a diplomatic correspondence be carried on just as two business men should write?

For instance, how would this go? Blaine to Salisbury:— "What do you propose doing on the seal question?"

Salisbury to Blaine:— "I am unable to state just at present what I will do."

Blaine to Salisbury:— "American war vessels will sail for the seal grounds as soon as they can be equipped. You had better find out pretty quick what you propose to do. I know what we shall do already. I hope I make myself understood."

Salisbury to Blaine:— "All right; that settles it. We are now ready to come off the perch."

Go to the District Attorney.

A woman in the lower end of the city complains to the APPEAL that she was recently choked into insensibility by a young hoodlum and her life threatened. She wishes to publish a card.

While the sympathies of the APPEAL are with the aggrieved party, this paper cannot be made a vehicle for the settlement of this sort of quarrels. The proper person to see is the District Attorney. He is there for that purpose.

## Arbor Day.

I have now established a permanent nursery, South of and adjoining the residence of C. N. Noteware. Now open for inspection, a complete line of fruit and ornamental trees. Roses, snowballs and lilacs. Best varieties. Parties desiring any of the above please call at the residence of C. N. Noteware. m30

By W. R. RANDALL, Secretary.

## Ought to Settle.

Not long ago a young man in this city made love to a poor, half-demented servant girl and succeeded in inducing her to give him \$100. It was nearly the last dollar she had and had earned it by hard work. Some steps ought to be taken to see that her money is restored.
